Products overview

# Integrator

The torso holder is a platform for supporting packing and carrying equipment and a system for carrying the rifle hands-free, including a quick release that allows the rifle to be placed in an active position in less than 1 second.

## Concept:

Molle,  
Buckles,  
Quick release,  
Elastic cord.  
Ambidextrous, for both  
right-handed and left-handed hunters.

Available colors:

The components are: **1 torso part, 2 side support, 3 back support, 4 holster, 5 Quick release T1 rifle holder.**

Elastic cord for controlling the T1 position after releasing the rifle.

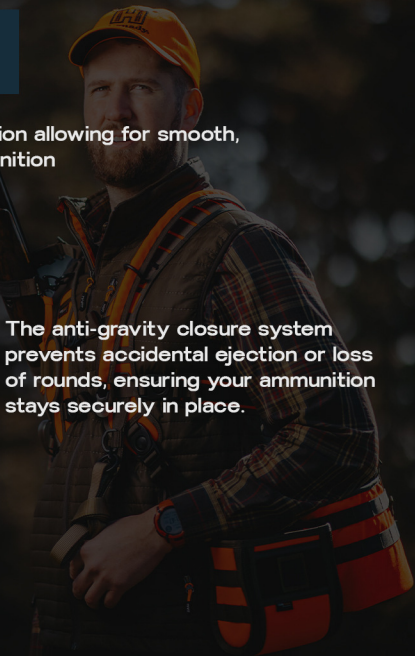

# Ammo Pouch

A unique carrier and storage solution allowing for smooth, fast, and intuitive access to ammunition with a simple hand movement.

The anti-gravity closure system prevents accidental ejection or loss of rounds, ensuring your ammunition stays securely in place.

Available colors:

Coyote

Brown

Orange

Green

Construction:  
**ANTI-GRAVITY  
STOP SYSTEM**

# Hunting Tripod Holder

Operates based on the principle of a gravitational pendulum.

## Mounting:

Hanging with two buckles.

Ambidextrous, for both right-handed and left-handed hunters.

Available colors:

# Backpack

The entire backpack serves as an integrated back support when worn on the back.

When worn on the side, it is suitable for first aid and various supplies, as well as a larger caliber pistol/revolver.

Available colors:

Coyote

Brown

Orange

Green

## Versatility:

Easily attachable  
in multiple positions

4.4 liters - 61 in<sup>3</sup>

(YKK )10 MM zipper with two sliders, with polymer cord inside the binding tape to prevent interference with the slider function.

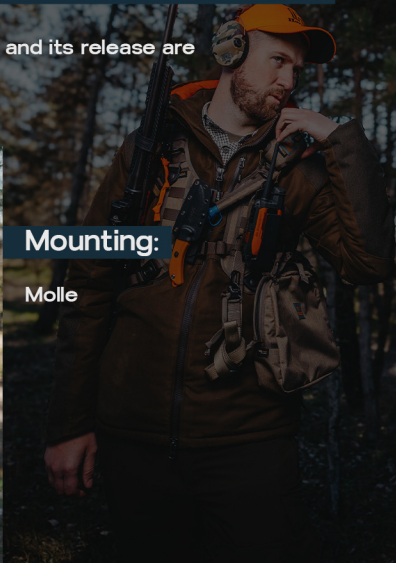

# Communication device holster
